Backend Developer building secure, scalable, and production-ready backend systems using Python and Django.

Experience across Conversational AI, REST APIs, deployment workflows, and OWASP-aligned engineering practices.

Experience

CognoAI | Python Django Developer | Aug 2022 - Sep 2023 | Jaipur, RJ

- Deployed 50+ Conversational AI bots across Web, Android, and WhatsApp using Python, Django, REST APIs, and internal AI tooling.
- Customized workflows, API integrations, backend logic, testing, and production deployments for startups, Indian financial institutions, and enterprise clients across MENA/Saudi Arabia.
- Improved deployment reliability through production debugging, issue resolution, and OWASP aligned security controls.

CognoAI | Python Django Developer Intern | Feb 2022 - Jul 2022 | Jaipur, RJ

- Contributed to 10+ client projects across backend development, deployment workflows, API integrations, and production support.
- Supported customization and deployment of Conversational AI solutions within Agile/Scrum teams.

Valeurbit Infosec | Cyber Security Analyst Intern | Apr 2021 - Jun 2021 | Jaipur, RJ

- Built foundations in VAPT, secure development, XSS, SQL Injection, and OWASP practices.

Projects

Task Manager REST API: Production-ready backend API demonstrating RESTful architecture.

TicTacToe: CLI project focused on algorithms and core C fundamentals.

Skills

Languages: Python, C

Backend: Django, DRF, REST APIs

Database: PostgreSQL

Security: OWASP, VAPT

Tools: Git, GitHub

Domain: Conversational AI, Agile/Scrum

Certifications

MTA Security Fundamentals,

INE Cloud Fundamentals, INE eJPT

Education

JECRC University | B.Tech in Computer Science |

2018 - 2022 | Jaipur, RJ

Achievements

- NEC Winner — IIT Bombay.
- 1st Rank — 'Envision' at St. Xavier's College.
